

## The Evolution of Prefab & The Impact on Electrical Contracting

(Josh Bone, Electri)

**NEW** - Thursday May 13, 2021  
**VIRTUAL** via Zoom – 7:30 a.m.-10 a.m.  
Registration at 7:15 am

**Minneapolis/St Paul NECA Member Registration Fee: \$0/per person**  
**Non Member Fee: \$100/per person**

Construction is evolving and changing faster with each passing year. Labor shortages combined with poor design documents, tighter schedules and rising material cost is forcing project stakeholders to rethink the way we design and build. Prefab is now a requirement on some jobs across the country and the growth in modular and other forms of industrialized construction is becoming the norm. In this presentation we will discuss why Off-site Construction is no longer seen as a passing fad. We will examine what is changing in Project Delivery methods and how this can potentially shift additional risk on trade contractors. Are you ready to embrace the new opportunities in this new world?
