

Pull Planning (Maxim Consulting Group)

Wednesday, September 20, 2023 – 7:30 am to 12 noon
Crowne Plaza Plymouth, 3131 Campus Drive, Plymouth MN

Registration 7 – 7:30 a.m., includes continental breakfast

\$200/per person for Minneapolis/St Paul Chapter Members

\$275/per person for Non-Chapter Members

Pull planning is a lean technique that is being successfully deployed in the construction industry to help improve coordination, planning, and ultimately reduce overall schedule durations. Participants will review case studies demonstrating the inefficiencies experienced on projects due to out of sequence work. An introduction to pull planning techniques and terminology will allow participant to join in on two separate hands on activities that illustrate the productivity improvements experiences as a result of batch flow and sequential work. At the conclusion of the session, participants will be educated on the impacts and overall process of pull planning.

Following the class, participants will be able to:

- Understand the mechanics and terminology of pull planning
- Identify waste associated with out of sequence work
- Effectively participate in a pull planning session with owners or general contractors

Target audience: Sr Execs, Financial Managers, Project Managers, and Field Managers
